FRENCH TEAM ONE AND TWO.

Jimmy Michael to Try for Records During Six-Day Race.

Numbers were distributed yesterday to the cyclists who will compete in the six-day international race at Madison spectively to Gougoltz and Simar, the Frenchmen.
Trainer John West, who is looking after the cyclists in their preparatory work at the Oval, thinks pretty well of the Frenchmen's chances. They cracked out a merry pace on their wheels yesterday for an hour or two and had frequent brushes with De Roeck, of Belgium; Fredericks, the German, and Hail, the Englishman.
Jimmy Michael yesterday afternoon algued an agreement to appear at Saturday night's opening meet and every afternoon and evening during the six-

afternoon and evening during the six-day struggle. He will try for records behind pace.

dren. He kept in the background.

The word was passed that these two little girls were thrust into their hands. The word was passed that these two little girls were the sister of the champion of the world, and they were at once the popular favorites.

"Oh! say, let us go. We must go home and get supper for pa and Jimmie," pleaded the older child.

Rode Home "Like Queens."

"Sure, jump into the carriage," shouted a hackman, and the children went galloping up the street in a reat carriage, "just like queens," they said.

But during all this time the boy Jimmie was not lide. He was too busy to look after his sisters. His place was perched on the spike steps of an electric light pole, where he could hear the word from the megaphone. When the flash came announcing the success of his brother Jimmie promptly let go and fell on the beads of the crowd below, dropping possibly ten feet. He played in clover as well as the girls.

The first person to recognize the boy was Sheriff Jones who had just won \$150 on the result. The Sheriff handed over two \$5 bills and told the boy to

English and American Methods. An Evening World reporter chatted with Mr. Huggins on the matter of a emparison of American and English

There is pratically no difference in the methods of training. There have been many stories from ecross the water con-cerning the methods used by Americans. centing the leadern parties; C. Blake, of Codar Rapids, is, representing the Western Idatic; John H. Shulta, of Port Chester; N. V., representing the Atlantic District; W. R. Allen, of St. Louis, Mo., representing the Central District, and E. P. Hesid, of San Francisco, representing the Pacific District. About 160 cases are scheduled to be heard, and the sesion promises to be interesting. but in reality they all work along the same lines. Training horses is allke the world over. When a is only one thing to do and that is to work him and see that he receives proper attention. Americans may study the peculiarities of their horses a mite

kely to stay? ence in Training and know much about the starting over there. Nearly all of the races are run English Jockeys Are Fast Copying Ameriant Copying Ameriant Straightaway, so we cannot see what kinds of starts are made. There is no complaint, however, and it is to be presumed that the starting and the barrier are satisfactory. Only two and three year olds are started from the barrier."

Trainer's Life in England.

Now that you are back home do you think you would prefer to stay here? "Not if I was to continue to train horses. A trainer's life is much more comfortable in England than it is here years. He looks just as natural as In England a trainer has his headquar-when he used to stamp the paddock at ters and all his operations are conducted Sheepshead and other racecourses in from there, if he intends to take par in a race meeting he ships his horses on he train and lands at the track proba oly on the morning of the race. If the neeting lasts over one day and the

On every side are broad meadows with no fences to keep the people out. Anyonic can stand on the heath and water the races run without charge. But it you want to bet you must pay to ge into the enclosure. The fee is, I think something like three guineas, or \$15 of American money. Then there are fees for different stands and the paddocks. Here in America you pay two dollar and you can go everywhere, from the paddock to the botting ring."

Timing Horses' Trints.

Do they use the watch much in Eng-nd? That is, do they gauge the condi-m of their horses the same as in this unity by special trial?" "Do they use the watch much in England? That is, do they gauge the condition of cheir horses the same as in this country by special trial?"
"Not so much, but they are gradually coming to it. It has to be done by flag. On Newmarket Heath they have poles which mark the distance, but these training courses are all straight and a man to time a horse must send a flagman to time a horse must send a flagman to the starting point. But nearly always they work with a trial horse, so that they ge a combination of American and English methods."
"Does each trainer have his course at "When you arive at a course are you permitted to gallop horses over it?" "Does each trainer have his course at
